Designer and Industrial Flooring Resins

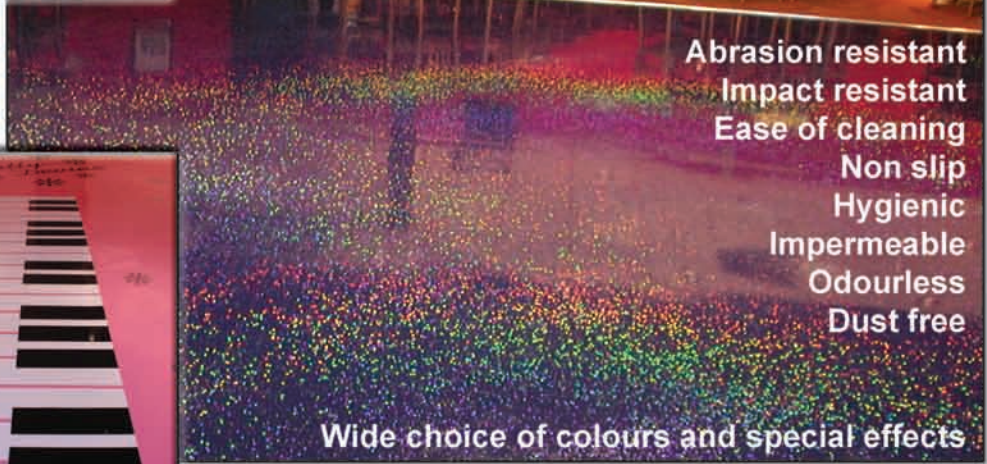

Resin floors are durable and suitable for areas requiring anti-slip or hygienic attributes whilst giving a decorative finish its is also useful for demarcation in areas where safety is of concern.

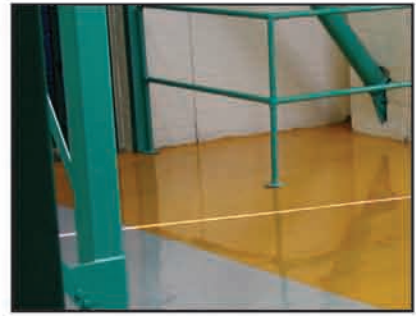

"Flooring solutions that suit your environment, meet your needs and match your expectations"

Abrasion resistant
Impact resistant
Ease of cleaning
Non slip
Hygienic
Impermeable
Odourless
Dust free

Wide choice of colours and special effects

Addagrip has a philosophy of ongoing research and development into new technologies. We seek to provide appropriate flooring solutions by employing the best raw materials and by pushing the boundaries of resin capabilities and performance.

Addagrip produce a range of solutions that provide the required characteristics for your floor from anti-slip to hygiene, and a choice of colours for demarcation or simply to brighten your life.

With a range of standard colours, or the choice of any British Standard or RAL colour to order, and the ability to include materials from sparkle to sand, the possibilities for creative design, patterns and logos are unlimited.

The Addagrip 'EDL' formulation extends the creative possibilities to a new dimension with organic fluid patterns and iridescent pigments.
