

Addastone Surface Protector is an advanced heavy duty surface protection for all Addastone resin bonded surfaces as well as other porous surfaces.

Addagrip launches protection treatment for porous surfaces

Newly launched is Addastone Surface Protector, an advanced heavy duty surface protection for all Addastone resin bonded surfaces as well as all other surfaces such as stonework, patios, block paving slabs, pedestrian areas, car parks or garage floors – in fact, any porous surface.

One application is all that is needed to protect a surface for between two and ten years. It prevents chewing gum adhering; moss, lichen and algae forming and also protects surfaces from liquids including oil, diesel, coffee and water ingress.

Further information and a datasheet on Addastone Surface Protector is available from Addagrip Surface Treatments Ltd on 01825 761 333, email: sales@addagrip.co.uk or by visiting the company's website at www.addagrip.co.uk
